A prisoner escaped from the moon prison. Celestin appeared before Belldandy, kissed her, and she fainted. Peorth, in Asgard, informed Urd Celestin's escape. Someone planted virus into Yggdrasil thru Belldandy and causing Asgard to seal off any connection to Midgard, effectively making the Norns on their own. Belldandy finally woke up but she lost all the memories about Keichi. Peorth escalated the incident to the council. Belldandy and Keichi went to NIT, Morgan appeared and approached Keichi. Belldandy raced against Morgan. Belldandy got some memory back when winning the race. Celestin appeared again and triggered some deep buried memory of Belldandy, especially the image of a strange gate. Urd and Keichi rescued Belldandy from Celestin but Keichi got hurt during the process.
